Cherry-Air spray is a fast acting Cherry scented deodorizing system. Designed for tough odors like **fuel oil**, pet odors, fire odors, tobacco smoke, and many others, Cherry-Air attacks the odors and leaves a fresh Cherry scent behind. Cherry-Air is biodegradable, non-toxic and environmentally friendly. It is safe to use in homes, businesses, hospitals, nursing homes, autos, kennels, storage lockers, and anywhere else with odor problems.

Breathe Easy!

Directions:

Shake container and spray area affected by odors. Use with Cherry-Air gel for long term odor neutralization.

HVAC Systems: Spray Cherry-Air into foul smelling furnace and air handler blower compartments and onto cooling coils and drain pans.

Fuel Oil: Clean-up oil and spray area with Cherry-Air spray. Use Cherry-Air gel to continue odor neutralization.

Caution: Keep out of reach of children.
Avoid spraying in eyes.
