NP24C CARBON BLOCK FILTER CARTRIDGE

**For Removing Objectionable Taste and Odors
and Filtering Sediment Down to 10 Microns•
* Not Performance Tested or Certified by NSF.**

NU-CALGON WHOLESALER, INC.
2611 Schuetz Rd. • St. Louis, MO 63043
800-554-5499 • www.nucalgon.com

Directions for Installing/Replacing Cartridges:

Turn off the water supply to the NP24DD unit. Press the red pressure relief button and unscrew clear bowl counter clockwise. The "O" ring in the housing should be inspected and lubricated as necessary. Remove outside wrapper from the new cartridge and install in bowl.

After installation, filter should be flushed with sufficient water to remove any fines. Under normal circumstances, treatment will last for up to six months. Date this canister upon installation and replace it in six months.

This filter should not be used where the water is microbiologically unsafe or with water of unknown quality without adequate disinfection before and/or after the system.
